Councillor Doucet

**Date:**

11 October 2006

**File/Dossier :**

13-06

**To/Dest. :**

Real Property Asset Management

**Subject/Objet :** \_\_\_\_\_

**Protocols for Public Notification**

Whereas there are frequent interruptions to residential living that impact negatively on quality of life related to road and sewer work remediation in the core area, or other events requiring amplified music in outdoor settings,

Whereas such interruptions require that the residents in the immediate vicinity of these activities are given advance notice of the expected duration of the activity being undertaken by the appropriate department at the city, providing residents with an opportunity to take actions to minimize the disruption to the quality of life,

Whereas when there was an application to install the VideoTron at Lansdowne Park reference to the city's Lighting Policy and public consultation was required,

Whereas such reference to the city's Lighting Policy does not appear to be in the day-to-day protocols in the management practices of Lansdowne Park with respect to late night operations of the Park

Inquiry: The city investigate how we could develop a protocol that would ensure that residents in the immediate area of Lansdowne Park be advised when the city will be undertaking operations that would be in contravention of the Lighting Policy, affording them the same opportunities to minimize disruption to their quality of life that we provide to residents for road, sewer and noise projects.

**Response/Réponse** (Please Provide Original Response To The City Clerk And A Copy To Each Member Of Council/Please provide a report to the Committee./Veuillez adresser l'original de votre réponse au greffier et une copie aux membres du Conseil municipal. Veuillez transmettre un rapport au Comité.)
